Machine-translated – under review

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

Necessary integration steps

The integration of the MT940 Nuclet is done in 8 steps:

[4.1 Nuclet import](#)

[4.2 Object imports](#)

[4.3 Setting up an input directory](#)

[4.4 Adjustments in the business object editor](#)

[4.5 Layout adjustments](#)

[4.6 Configuration of the Nuclet parameters](#)

[4.7 Source-code adjustments in Java rules](#)

[4.8. Specific extensions \(optional\)](#)

All integration steps are explained in detail in the subordinate sections.
