Machine-translated – under review

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

With incomplete integration or data inconsistencies, errors and problems can occur when operating the SEPA Nuclet.

Here is the list of all possible errors, with notes on how to solve these problems.

Possible variable parts of the error messages are represented by "..." in this overview.

Error code	Error message	Cause and solution
SPA.422.001	SEPA order type ... is missing (SPA.422.001)!	see details
SPA.422.002	SEPA order type ... is not unique (SPA.422.002)!	see details
