Interfaces

Integration Nuclets for payments, accounting, e-invoicing and more.

KONZEPT

EVERYONE

UPDATED: JUL 2026

APPLIES TO NUCLOS 4.2026.X

These Nuclets connect external formats and systems – from SEPA payments and bank statements to electronic invoicing.

Available integrations

- [SEPA](#) – export of SEPA messages (PAIN XML) for direct debits and credit transfers.
- [CAMT](#) – import and processing of CAMT files (cash management, CAMT.053/054).
- [DATEV](#) – export of CSV files for processing with DATEV.
- [E-invoicing](#) – creating and receiving electronic invoices (XRechnung, ZUGFeRD).

In preparation

MT940 (bank statements), UPS/EasyLog (shipping), cKonto, ECB exchange rates and Intrastat are in preparation or not yet generally available. Links point to the German detail pages.

Contents
