Machine-translated – under review

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

3.1 Integration points

To create the following attributes you need a new integration point (Configuration > Integration points) in your main Nuclet:

Integrationspunkt

Nuclet

org.nuclet.handel

Name

DATEV Information

Nur lesen?

☒

Optional?

☐

Mit Statusmodell?

☐

Ziel Nuclet

org.nuclet.datev

Ziel Businessobjekt

DATEV Information

View Name

3.2 Customer or debtor object for customer exports

For DATEV customer exports it makes sense to have a customer or debtor object.

A date field is required to mark exported records.

Attribute	Java data type	Nuclos data type	Mandatory field?	Unique?	Description
DATEV Export Date	Date	Date	no	no	date on which the record was transferred into a DATEV export
DATEV Information	org.nuclet.datev. DATEVInformation	Reference field	no	no	references the integration point "DATEV Information"

Table 3.1: Business object for customers or debtors

3.3 Invoice objects for invoice exports

For DATEV invoice exports it makes sense to have an invoice object.

A date field is required to mark exported records.

Attribute	Java data type	Nuclos data type	Mandatory field?	Unique?	Description
DATEV Export Date	Date	Date	no	no	date on which the record was transferred into a DATEV export
DATEV Information	org.nuclet.datev. DATEVInformation	Reference field	no	no	references the integration point "DATEV Information"

Table 3.2: Business object for invoices

3.4 Turnover objects for turnover exports

For DATEV turnover exports it makes sense to have a turnover object (e.g. invoice, receivable, booking item or similar).

A date field is required to mark exported records.

Attribute	Java data type	Nuclos data type	Mandatory field?	Unique?	Description
DATEV Export Date	Date	Date	no	no	date on which the record was transferred into a DATEV export
DATEV Information	org.nuclet.datev. DATEVInformation	Reference field	no	no	references the integration point "DATEV Information"

Table 3.3: Business object for turnover
