 **Machine-translated – under review**

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

Feature scope

- The "CSV Export" Nuclet lets you export data in CSV format on the basis of freely definable data sources.
- Exports can only be run manually. The manual execution allows a check of the exported records.
- Exports that have been run are logged and can be viewed in the export record.
