This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

|               |                                                                                                                                                                                     |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Error message | No attribute defined in method ... .getIso4217CodeAttribute() (940.472.003)!                                                                                                        |
| Cause         | No attribute is defined in the getIso4217CodeAttribute() method of the specified class. This method should return the ISO 4217 code attribute of the currency business object used. |
| Solution      | Please check <a href="#">Integration step 4.7.2</a> .                                                                                                                               |
