 **Machine-translated – under review**

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

Overview

Simple Nuclet that contains some frequently needed value lists, freely extensible and adaptable. The following table lists the value lists contained in the Nuclet alphabetically.

Value list	Description
Department	Departments, e.g. for assigning contacts to the departments in the company of a contractual partner.
Address type	Address types, e.g. delivery address, billing address, etc.
Salutation	Salutations, e.g. Mr, Mrs, company, etc.
Order channel	Order channels, e.g. by fax, by phone, etc.
Unit	Units, e.g. piece, kg, m, etc. Also offers the option to specify reference quantities and reference units for converting units.
Country	Countries, e.g. for assignment when entering addresses. Allows assignment to a country group and specification of the ISO code.
Country group	Country groups, used in particular for a destination-country-dependent determination of VAT rates and notes on tax liability
Dunning level	Dunning levels, e.g. 1st reminder, 2nd reminder, etc.
Position	Positions, e.g. managing director, accounting, etc., in particular for classifying contacts at a contractual partner.
Price group	Price groups, e.g. for assigning articles and customers to price groups.
Title	Titles, e.g. Dr., Dipl.-Ing., etc.
VAT rate	VAT rates, e.g. 7%, 19%, etc.
Shipping method	Shipping methods, e.g. standard, express, etc., with the option to specify a flat-rate shipping charge.
Payment term	Payment terms, e.g. 14 days net, etc., with the option to define cash discounts.
