📖 Notes on Nuclos 4.11

Special upgrade notes for Nuclos 4.11 beyond the regular release notes.

REFERENCE ADMINISTRATORS **UPDATED: JUL 2026** APPLIES TO NUCLOS 4.2026.X

On this page

**Machine-translated – under review**

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

The notes on this page highlight special changes that require separate mention beyond the release notes. This applies in particular when upgrading to a new Nuclos release requires certain additional preceding or subsequent measures that must be observed to avoid unwanted behavioral changes or side effects introduced by new features.

The Java classes generated by Nuclos for all business objects now only contain getters and setters with simplified attribute names (a-zA-Z0-9). äüöAÜÖß are still handled separately and converted to ae etc.

So mainly attributes with "-" and "_" are affected
