Notes on Nuclos 4.2023.25

Special upgrade notes for Nuclos 4.2023.25 beyond the regular release notes.

REFERENCE ADMINISTRATORS **UPDATED: JUL 2026** APPLIES TO NUCLOS 4.2026.X

On this page

**Machine-translated – under review**

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

The notes on this page highlight special changes that require separate mention beyond the release notes. This applies in particular when upgrading to a new Nuclos release requires certain additional preceding or subsequent measures that must be observed to avoid unwanted behavioral changes or side effects introduced by new features.

**Charts in dashboards**

As of this version there is a system permission "Configure charts (Web)". This system permission will be required in the future when non-superusers want to create and modify dashboards. ([NUCLOS-10294](#) - Abrufen der Vorgangsdetails... **STATUS**). Backward compatibility is therefore no longer guaranteed on this point.

In addition there are new features:

- Default start for dashboards ([NUCLOS-10285](#) - Abrufen der Vorgangsdetails... **STATUS**)
- Charts in dashboards ([NUCLOS-10303](#) - Abrufen der Vorgangsdetails... **STATUS**)
