📖 Notes on Nuclos 4.2024.13

Special upgrade notes for Nuclos 4.2024.13 beyond the regular release notes.

REFERENCE ADMINISTRATORS **UPDATED: JUL 2026** APPLIES TO NUCLOS 4.2026.X

On this page

**Machine-translated – under review**

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

The notes on this page highlight special changes that require separate mention beyond the release notes. This applies in particular when upgrading to a new Nuclos release requires certain additional preceding or subsequent measures that must be observed to avoid unwanted behavioral changes or side effects introduced by new features.

**Raising the NPM version**

As of this version the NPM version was raised to 10.5.0. Projects that use the web client in combination with WebAddons should update their npm version accordingly.
