📖 Notes on Nuclos 4.3

Special upgrade notes for Nuclos 4.3 beyond the regular release notes.

REFERENCE ADMINISTRATORS **UPDATED: JUL 2026** APPLIES TO NUCLOS 4.2026.X

On this page

**Machine-translated – under review**

This page was machine-translated from German as a first draft and is currently under review. The authoritative source remains the **German original** (see the language switch above).

The notes on this page highlight special changes that require separate mention beyond the release notes. This applies in particular when upgrading to a new Nuclos release requires certain additional preceding or subsequent measures that must be observed to avoid unwanted behavioral changes or side effects introduced by new features.

**Permission**

A new permission "Edit SQL manually (data sources)" restricts the editing of manual SQL. Non-superusers who were allowed to edit data sources with an earlier version of Nuclos and also used manual SQL must be granted this permission. See also <http://support.nuclos.de/browse/NUCLOS-3628>

**Nuclet assignment**

Mandatory Nuclet assignment

**Removal of the "module permissions" in the user groups**

Removal of the "module permissions" in the user groups
