🔧 Creating records

Create new records via object generators – including parameter object selection.

HOW-TO USER **UPDATED: JUL 2026** APPLIES TO NUCLOS APP 1.0

On this page

- [Related pages](#)

You create new records via the configured **object generators** (as in the Web/Rich Client).

1. Start the generator.
2. If it requires a **parameter object**, pick it from a searchable list.
3. The generated record opens in the detail view to complete and save.

Depends on the Nuclet

Which generators are available depends on the Nuclet and your rights.
