

Database

 Language: [Deutsch](#) · [English](#)

Database

Configure views, functions and procedures as part of a nuclet – transferable via the database configuration.

KONZEPT

APPLICATION DEVELOPER

UPDATED: JUL 2026

APPLIES TO NUCLOS 4.2026.X

What belongs to the database configuration?

Menu: [Configuration](#) [Database](#).

The database configuration manages custom **views**, **functions**, **procedures** etc. as part of a nuclet. On a nuclet transfer these objects are carried over automatically.
