

Administration

 Language: [Deutsch](#) · [English](#)

Administration

Overview of the Nuclos administration building blocks – users, rights, tenants, languages, jobs and more.

KONZEPT

ADMINISTRATOR

UPDATED: JUL 2026

APPLIES TO NUCLOS 4.2026.X

The **administration** building blocks let the administrator make system-wide settings – from user and permission management to tenants, languages, jobs, search filters and interfaces.
