Special notes from developers for developers on the daily handling of the development environment and Nuclos – especially: „What should I watch out for when updating the IDE?“

Version	Note
4.2025.17	Removed the jgraphx dependency and dead code around T_MD_EntityRelation (was unused).
4.2024.13	Updated web prerequisites to Node LTS v18.20.2 and NPM 10.5.0.
4.2023.21	New Maven modules nuclos-dal-common and nuclos-dal-server (NUCLOS-10267).
4.2023.8	Updates: Tomcat 9.0.72, PostgreSQL JDBC 42.5.4, Lucene 8.11.2, Apache CXF 3.5.5, Batik 1.16, Swagger 2.2.8, Jackson 2.14.2. Interface switched to Jackson – serverclient extensions may be affected.
4.2022.41	Web client: Angular 1215, Node 14 LTS18 LTS, updated addon API.

IntelliJ note

For Maven import problems in IntelliJ >2022.2.4, it helps to review the experimental new Maven import or use a proven IDE version.
